

The 2<sup>nd</sup> half of the PTO/ Student Council school-wide service project to collect soda tabs for the Ronald McDonald House has begun!

Each homeroom will again be collecting soda can tabs, which you can start sending in now. Tabs will be weighed at the end of May, and the class with the highest total weight will win a pizza party. 1C was the lucky winner in the first contest with a total of 28 pounds!

The Ronald McDonald House sells all aluminum tabs collected to a local recycling company, and proceeds help with daily operating expenses at the Ronald McDonald House. Our hope is that as a school community we can continue to help families staying at the Ronald McDonald House through our collection - "Kids Helping Kids!"

We collected **121.5 POUNDS** of tabs from September through December... Let's try to beat that amount with our new contest!
