

The PTO is once again partnering with Student Council for a school-wide service project.

As a school community, we will be collecting soda can tabs to be donated to the Ronald McDonald House. Our goal is to reach **100 pounds** of tabs.

If the school can meet this goal by mid-May, the PTO will provide a special prize to the entire student body. We are also hoping that once 50 pounds of tabs have been reached that we will do a half-way treat as well.

Student Council will be encouraging classes to keep the collection going through the next few months. The Ronald McDonald House sells all aluminum tabs collected to a local recycling company, and proceeds help with daily operating expenses at the Ronald McDonald House. Our hope is that as a school community we can help families staying at the Ronald McDonald House through our collection - "Kids Helping Kids!"

The soda tab collection begins **NOW** - so start sending them in!
